

Attention: Iraq and Afghanistan war VETERANS & PARTNERS

**NEEDED FOR A RESEARCH STUDY TO LEARN ABOUT
FAMILY ADJUSTMENT AFTER A COMBAT DEPLOYMENT!!!**

**Philadelphia Veterans
Affairs Medical Center**

**3900 Woodland Ave
Philadelphia, PA 19104**

The Complicated Family Reintegration of OEF/OIF Veterans Study: The “VALOR Study”

Purpose: To understand how combat related stress symptoms may interfere with family readjustment after returning from a combat deployment.

Reason to Participate: Help contribute to psychological sciences! Findings from this study could help us learn how to help veterans readjust to civilian life. You will be compensated for your participation.

Eligibility for Participation:

- Veterans that have separated from active duty within the last 2 years
- Served in a combat deployment in the Afghanistan–Iraq conflicts
- Married or living with a relationship partner

What you will do as a Participant:

- Veteran & Partner will participate in interviews at enrollment and 12–months later lasting about 50 to 75 minutes
- Some couples will be asked to do additional interviews which they will also be compensated for

Convenience: Flexible Interview options!

- During the day
- After hours and weekends
- In your home
